

Create and maintain trusted assessments

Start with HackerRank's Certified Assessments and build tests that fit your unique role-to-skill mapping

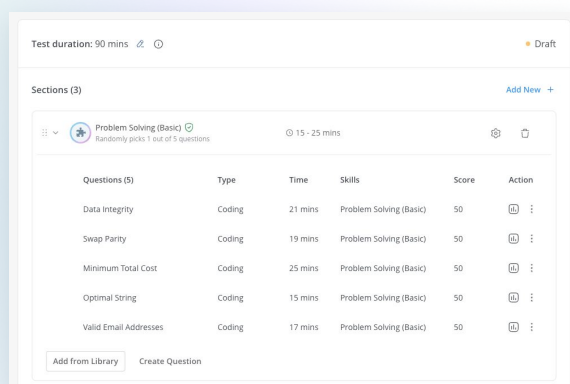

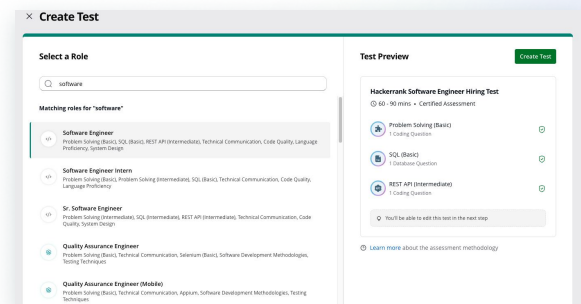

Launch assessments in minutes

Find the role-based assessments you need by searching for tests by skills assessed, role titles, or other relevant keywords. Launch it in a few clicks.

Start with a trusted recommendation

Choose from 79 out-of-the-box Certified Assessments.* You can publish the test as is, or customize the duration or section order.

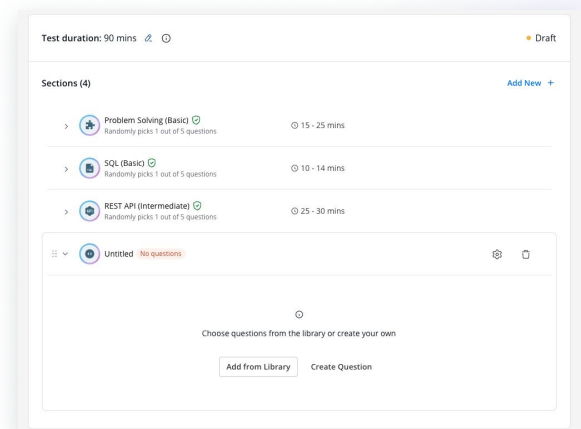

Leave content maintenance to us

Add or remove skill bundles with automatic leaked question replacement. Leaked questions are monitored and replaced with similar questions on the same day.

Leverage thousands of questions and custom content

Add HackerRank library questions or your custom questions to your assessments. Adjust section settings like time limit or number of questions.
